

Riya Kumari

Patna, Bihar, India

rnrm754@gmail.com — [LinkedIn](#) — [GitHub](#)

Objective

Aspiring Software Developer with strong foundations in Web Development, Python programming, and Robotics Simulation. Passionate about building scalable software systems, AI-assisted applications, and automation-based solutions. Seeking internship opportunities in Software Development, Frontend Engineering, or AI-driven projects.

Education

BCA – Bachelor of Computer Applications

Patna Women's College, Patna University

2024 – 2028

CGPA: 9.15 (1st Year), 9.37 (2nd Year)

Class 12th (PCM), CBSE

2024

79.4% — Vidya Niketan School

Class 10th, CBSE

2022

92.8% — Vidya Niketan School

Technical Skills

Languages: C, Python, Java (Working knowledge)

Frontend: HTML5, CSS3, JavaScript, Responsive UI Design

Backend/DB: MySQL, CRUD Operations

Tools: Git, GitHub, VS Code, GitHub Pages

Concepts: REST APIs, DOM Manipulation, Data Structures (Basics)

Emerging Tech: AI Prompt Engineering, ROS2, Gazebo Simulation

Experience / Projects

Frontend Developer – Personal Portfolio Website

- Built a responsive portfolio website using HTML, CSS, and JavaScript
- Designed modern UI with Flexbox-based layout system
- Deployed project using GitHub Pages with live hosting

JavaScript Developer – To-Do List Application

- Developed a task management web app using vanilla JavaScript
- Implemented CRUD operations using Local Storage
- Designed responsive UI focusing on user experience and simplicity

AI Systems Developer – Portfolio Automation Concept

- Designed an AI-powered system for automated portfolio generation using prompt engineering
- Explored integration with AI APIs (Hugging Face-based workflows)
- Focused on scalable developer portfolio generation with GitHub + LinkedIn integration

Robotics Simulation Engineer – ROS2 Face Tracking System

- Developed face detection and tracking simulation using ROS2 architecture
- Used Gazebo virtual environment for robotic perception simulation
- Simulated camera-based tracking pipeline for autonomous robotic behavior

Achievements

- Consistently high academic performance (CGPA $\geq$ 9.0 in BCA)
- Built multiple deployable frontend projects using JavaScript
- Hands-on experience with AI tools and prompt engineering workflows
- Active interest in competitive programming platforms (HackerRank, LeetCode)

Interests

Software Development, AI Tools, Frontend Engineering, Robotics Simulation, UI/UX Design, Competitive Programming

Declaration

I hereby declare that the information provided is true and correct to the best of my knowledge.
